4. Use the Map. Featured functionality:

- a. Change the Basemap (the default is a topo map, but you can choose Imagery, etc.).
- b. Zoom to particular cities using Bookmarks (e.g. Conrad, Valier, Brady, Dupuyer, Ledger).
- c. Perform address or road search. Advise that “less is more” – type the address number and first several characters of the road name if you are unsure of spelling; there may be pre-directionals (e.g. N, S, E, W, NW, SW, NE, SE), so you may have to try several times.
